

Mitchell School District #55

Code: IICA-19

Adopted: 1-13-05

Overnight Trip Policy

Students must be supervised at all times on overnight trips. It is the responsibility of the coach or teacher in charge of a field trip to make sure that at least one adult associated with the school will be at motels or other places the school may be spending the night to supervise students any time students are at the facility. This does not require that an adult be in every room. Students of the opposite sex will not be allowed in the same room at the same time without an adult in that room.
